CHOOSE BUILDING TRACK A, B, or C

All of our stock floor plans can be built on one of 2 Construction Tracks we call "Track A" and "Track B". You make the choice as to how you would like to have your home designed and Built. Track "C" is a full Custom Build.

Track A - No Changes, No Extra Charge

- ✓ With Track A, there are no changes to the floor plan

Track B - Plan Changes Adds Cost Per Change

- ✓ Make interior or exterior changes to any of our floor plans. This track adds approximately 30-60 days to the building process and fee includes design changes. Additional construction resulting from plan changes shall be billed to the customer as a change order. All costs are transparent on a cost-plus basis. This is a plan modification and not a full plan redesign.

Track C - Full Custom - Architectural & Engineering Price Based on Size, Complexity, and Design

- ✓ We start with our Standard Specification to achieve a fixed price baseline. We give you an estimate upfront and then re-bid the plan after its designed. All homes are built on a "Cost-Plus" basis for full transparency, and budget control.
- ✓ Add Approximately 30-60 days to the building time

IMPORTANT NOTICE

These specifications are not part of any Construction Agreement and are for marketing purposes only. Every home building project is different which requires detailed specifications for each project. Engineering, Fire flow, and Energy credits are site-specific. Your actual project will include the Options, Materials, and Selections form (OMS) and a complete list of Homeowner Responsibility Items as part of your complete Cost Plus Construction Agreement. Those signed specifications are part of your agreement and supersede the specifications contained on this form.

Our 3D floor plan renderings may show added or upgraded options that are not included in the base price. Some options are plan specific. Excluded items are subject to change depending upon home and customer requirements due to circumstances beyond our control.

Upgrades can be included in the total purchase price for loan purposes or paid for in cash by the customer at the time of selection.

Prices, Standard Specifications, and Options are subject to change and/or deletion at the sole discretion of Diggs Custom Homes without notice. Included components manufacturer brands may be substituted with products from a different manufacturer of equal value at the sole discretion of Diggs Custom Homes.

We do not build in all areas of Washington and we reserve the right to refuse service.

COST-PLUS SAVES YOU MONEY PLUS GET FULL TRANSPARENCY

- Don't Get Sucked in with a Low "Internet Price" Only to Get Stuck Later Overpaying for Upgrades and Other Components, Driving Your Final Home Price Up
